(54) Title: DELIVERY SYSTEM FOR A MEDICAMENT OR WELL-BEING ENHANCING COMPOSITION

(57) Abstract: A delivery system (1) for a medicament or well-being enhancing composition, comprising a flexible member (3), means (5) for attaching the flexible member (3) to fabric to form a pocket and an absorbent pad (7) for impregnation with the medicament or well-being enhancing composition arranged such that when the flexible member (3) is attached to a piece of fabric a pocket is formed shaped and sized such the pad may be received and held securely within the pocket but is removable therefrom. The fabric is typically part of a garment (25) or bed-linen.

AMENDED CLAIMS

[(received by the International Bureau on 03 February 2004 (03.02.04);
original claims 1-12 replaced by new claims 1-22 (4 pages))]

1. A delivery system for a medicament or well-being enhancing composition, comprising a flexible member, means for attaching the flexible member to fabric to form a pocket and an absorbent pad for impregnation with the medicament or well-being enhancing composition arranged such that when the flexible member is attached to a piece of fabric a pocket is formed shaped and sized such the pad may be received and held securely within the pocket but is removable therefrom.
- 5
- 10
2. A delivery system according to claim 1, in which the flexible member includes an iron on adhesive on one surface, the flexible member being positioned by the user on a fabric and then ironed into place to secure it.
- 15
3. A delivery system according to claim 1 or 2, in which the flexible member comprises a pocket.
- 20
4. A delivery system according to claim 1 or 2, in which the flexible member comprises a sheet of material which forms the pocket with the fabric when attached in place.
- 25
5. A delivery system according to claim 3 or 4, in which the pocket includes closure means.
6. A delivery system according to any of the preceding claims, in which the pad is supplied impregnated with a medicament or well-being enhancing composition.

7. A delivery system according to any one of claims 1 to 6, in which the pad is supplied separately from a medicament or well-being enhancing composition for impregnation just before insertion into the pocket.
- 5 8. A medicament delivery system according to any one of the preceding claims, in which the medicament is a vapourised decongestant or an essential oil.
9. A medicament delivery system according to any one of claims 1 to 7,
- 10 in which the medicament is a muscle relaxant.
10. A medicament delivery system according to any one of claims 1 to 7, in which the well-being enhancing composition comprises an insect repellent.
- 15 11. A medicament delivery system according to any of claims 1 to 7 in which the well-being enhancing composition comprises a fragrance or a perfume.
- 20 12. A medicament delivery system according to any one of the preceding claims in which the flexible member is decorative or carries advertising matter.
- 25 13. A medicament delivery system according to any one of the preceding claims in which the flexible member is a muslin, net or mesh material.
14. A medicament delivery system according to any preceding claim in which the means for attaching the flexible member to fabric comprises any of the following: stitching; a self-adhesive.

15. Fabric comprising a pocket characterised in that the pocket is arranged to receive an absorbent pad impregnated with medicament or well-being enhancing composition, the pocket being shaped and sized such that the pad may be received and held securely within the pocket but is removable therefrom.
16. Fabric according to claim 15 characterised in that the pocket includes a closure means.
- 10 17. A fabric according to claim 15 or 16 in which the medicament or well-being enhancing composition is any of the following: a vaporised decongestant or an essential oil; a muscle relaxant; an insect repellent; a fragrance or a perfume.
- 15 18. A garment comprising a pocket characterised in that the pocket is arranged to receive an absorbent pad impregnated with medicament or well-being enhancing composition, the pocket being shaped and sized such that the pad may be received and held securely within the pocket but is removable therefrom.
- 20 19. A garment according to claim 18 characterised in that the pocket includes a closure means.
- 25 20. A garment according to claim 18 or 19 in which the medicament or well-being enhancing composition is any of the following: a vaporised decongestant or an essential oil; a muscle relaxant; an insect repellent; a fragrance or a perfume.
- 30 21. A kit comprising an adsorbent pad impregnated with a medicament or a well-being enhancing composition and flexible member together with means for attaching the flexible member to a fabric to form a pocket such

that when the flexible member is attached to a fabric a pocket is formed shaped and sized such that the pad may be received and held securely within the pocket but is removable therefrom.

- 5 22. A kit according to claim 21 in which the medicament or well-being enhancing composition is any of the following: a vaporised decongestant or an essential oil; a muscle relaxant; an insect repellent; a fragrance or a perfume.
